How to read the prices. Each product specifies the included base and personalization, minimum order and quantity pricing. Sizes may be mixed within the same product and design. Adult apparel is priced for S-XL; see the size guide for surcharges. Your quote confirms materials, color, scope, price and delivery date.

About the images. Product visuals are design concepts. Sample brands do not represent LEBOB clients. The approved proof and, when applicable, a physical sample define the final product. Footwear customization is not offered.

SIZE & FIT GUIDE

The right fit matters

The selected style chart and a reference garment help you choose the right size for every person.

A • Width. Measure across the chest, from underarm to underarm, with the garment laid flat.

B • Length. Measure from the high point of the shoulder to the bottom hem.

Send both measurements and compare them with the size chart for your quoted style.

Category	Typical options	Confirm before ordering
Adult	S, M, L, XL, 2XL, 3XL	Fit, chest width and length
Women's	XS-2XL; selected styles 3XL	Fitted or regular cut
Youth	YXS, YS, YM, YL, YXL	Measurements, not age alone
Pants / belts	Numeric sizes by product	Waist and length
Caps / beanies	Adjustable, S/M or L/XL	Head circumference

2XL +\$3

3XL +\$5

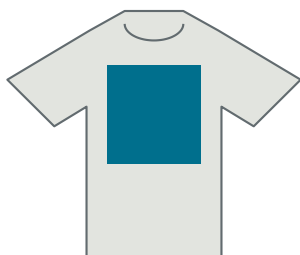

Indicative surcharge per letter-sized garment. For two-piece sets, apply it to each garment. Other sizes and fits require a specific quote.

For teams: provide a list with the person, style, color and size. Mixed sizes can count toward the same quantity tier when the product and artwork remain the same. Availability and final measurements are confirmed before production.

MAKE IT YOURS

Choose how your brand appears

EPOXY COUNTERTOP PROJECTS

Measure: send photos, length, depth, edges and location. Area in sq. ft. = length in feet × depth in feet. Divide L-shaped counters into rectangles without counting the corner twice.

Scope: X01-X04 cover a firm, suitable existing countertop. New cabinetry, rebuilding, removal, plumbing, walls and full-height sides are excluded. Preparation, protection and finish are confirmed during the site review.

Schedule: allow 2-5 weeks for scheduling and execution, plus the selected resin system's cure time. Do not use the surface until released by the installer; some systems reach full cure at 30 days.

The volume table applies to simple textile printing. Caps, embroidery and specialty work require separate capacity confirmation. Shipping, stock shortages and artwork changes may extend the schedule. Rush requests require confirmation.
